Comprehensive Website Audit & Report.

We deliver independent and structured website audits that assess performance, user experience (UX), search engine optimisation (SEO) and risk. Our insights help businesses identify website inefficiencies, flaws, exposure and security gaps. Through comprehensive analysis, we provide our clients with a detailed findings report inclusive of identified improvement opportunities across the board. As our findings are independent and unbiased, these may be presented to internal or external developers, designers, agencies, or even ourselves.

Full website audit & comprehensive report: **R1,000**

Timeframe: Audit, Report Compilation &
Submission - **7 Working Days.**
